Phone: 0295238948 

BBFHS member Jeff Madsen has had a long career in Information Technology using GIS (Geographic Information Systems) to prepare maps for Government, private enterprise and family researchers. In this session Jeff will provide an introduction to NSW Land records available online at the Historical Records Viewer(HLRV) and demonstrate how these records can be used to enhance your family research so it becomes more than just names and dates.

Early land records
Parish and Town maps
Land Title systems
Using historical Land Records
for family research

Use of NSW Land Registry Services, including HLRV,
Geographical Names Board and SIX Maps websites

Non-members WELCOME on payment of \$10. Follow the links for on-line payments on the website
