presents

LEONIE BELL

POWERFUL POWERPOINT

Powerful PowerPoint

Photo essays and visual presentations of your family history for family members or a society lecture have become increasingly important in recent years. However, you don't want to bore people to death with ineffectual slide shows. We will explore some ways to give your PowerPoint presentations more impact, improve their design, and engage with your audience. We will explore basic principles of slide design, photo sources, transitions, animation, and video effects. Notes will be provided after the session.

Leonie Bell is a tour guide with a keen interest in family history and local history and is an active member of Botany Bay Family History Society. She has been a Professional Member of the Institute of Australian Tour Guides (IATG) since 2001. Leonie has conducted tours at Sydney Opera House for 17 years, explaining its history, architecture and performance to over 85,00 people. She also guides educational tours of The Rocks for Sydney Walks; Leonie twice won Bayside Council's Ron Rathbone History Prize for her research on the history of Rockdale Opera Company (2016) and the Botany wool industry (2018) and was Highly Commended (2017) for her biography of Rockdale Alderman Simon Peter Depena.

ZOOM WEDNESDAY 6TH OCTOBER 7.30PM
