

ANNUAL REPORT 2023 - LIBRARY

The Library now has a total of 4,131 items which includes books, CDs, DVDs, microfiche, maps, journals and pamphlets. Many thanks to members who have donated to the library from their own collections.

The library receives some very interesting items. A recent example is a history of the landing at Gallipoli published by the Returned Soldiers Association, Sydney in 1917. Please ask at the desk if you wish to have a look at this book in the library.

The library's collection of cemetery inscriptions is continuing to increase. We also have a good collection of pioneer histories for various districts and continue to receive additions. If researching convict history the library's collection is also worth a look as additional items are received regularly.

The library is a good source of background information for your ancestors that you might not find online and the catalogue can be found on the Society's website.
