

WEBMASTER'S REPORT 2023

Pat Fearnley

There have been no changes to the site's format made during the year. Pages viewed in a month average 1425, the most visited link being the Events Calendar, followed closely by Latest News, Payments and Members Lounge.

Richard Linklater is to be thanked for implementing extra security for our site by converting the IP address to https format.

Our Members Only section has been renamed The Members Lounge, giving access to Zoom presentations, tutorials and webinars on a variety of topics, from monthly meetings and member chat meetings where permission of the presenter for publication has been given. This has been welcomed by members and it should be noted that some speakers limit the publication to two weeks after the event, so you are advised not to delay catching up on a missed presentation.

As always, suggestions and comments on any aspect of Botany Bay's site are welcome.
